

CPU / GPU Input Summary

1. Category: CPU | Input: Face-based attendance marking
2. Category: GPU | Input: Multiple face detection in class
3. Category: GPU | Input: Mask detection (COVID compliance)
4. Category: GPU | Input: Uniform dress-code detection
5. Category: CPU | Input: Headcount tracking in class
6. Category: CPU-GPU | Input: Entry/exit time tracking
7. Category: CPU-GPU | Input: Classroom occupancy analysis
8. Category: CPU-GPU | Input: Face recognition with student database
9. Category: GPU | Input: Emotion recognition (happy, sad, bored)
10. Category: GPU | Input: Focus/attention detection
11. Category: GPU | Input: Drowsiness or sleeping detection
12. Category: GPU | Input: Mood tracking for well-being
13. Category: GPU | Input: Anger or frustration recognition
14. Category: GPU | Input: Facial expression analytics dashboard
15. Category: GPU | Input: NLP-based emotion report summaries
16. Category: GPU | Input: Stranger face recognition (alert)
17. Category: GPU | Input: Fire/smoke detection
18. Category: GPU | Input: Object left-behind alert (bag, package)
19. Category: GPU | Input: Corridor loitering detection
20. Category: GPU | Input: Bullying/fight detection
21. Category: GPU | Input: Violence or aggressive posture detection
22. Category: CPU-GPU | Input: Entry gate surveillance with AI
23. Category: CPU-GPU | Input: Face-based employee attendance
24. Category: CPU-GPU | Input: Multi-entry headcount
25. Category: GPU | Input: Employee emotion recognition at entry
26. Category: GPU | Input: Entry/exit time log generation
